## ROTARY BOX INDEXER

- Small footprint
- Minimize labor
- Portable
- Optional dust cover

The Rotary Box Indexer is a compact, labor-saving, and portable solution designed to streamline your packing process. It boasts a small footprint and is equipped with features such as incremental cooling, which ensures that the bottles are not damaged from being too soft when more are packed on top.

This device is easy to move around with its locking casters and fork pockets. It also includes a three-color alarm light with a buzzer to indicate the status of the machine and when it's time to change boxes. The bottles are stopped when the boxes are being indexed, ensuring precision in packing. The Rotary Box Indexer is an innovative product designed to enhance efficiency and reduce labor costs in your packing process.

### Specifications

Power Requirements: 1Ø 120VAC 7A
